WILD MATHS: BIRDS

QUICK FIRE MULTIPLICATION

1. What is 7 times 4?
2. What is 3 multiplied by 8?

NOW TRY THESE!

3. If 144,000 wild birds were ringed in Scotland in 2011, and half this number the following year, how many birds were ringed in 2012?
4. Scotland is home to around 50% of the world's gannets. If there are 180,000 here, how many are there in the rest of the world?
5. The smallest British birds' egg is from the goldcrest. These eggs weigh 6g. If a bird lays 9 eggs, how heavy are they in total?
6. If there are 5 bluetits in a garden and they each eat 12 seeds from the bird feeder, how many seeds is this in total?
7. Scotland's largest puffin colony is found on St Kilda where there are 136,000 pairs. If half the pairs flew out to sea, how many would be left?
8. If 26 chaffinch nests have 4 eggs in each, how many eggs is this in total?
9. A magpie was tracked flying 16 miles a day. So how many miles could it fly in 4 days?
10. There are 50 species of gull in the world. 6 of these species live in the UK. How many species do NOT live in the UK?

WILD MATHS: BIRDS

QUICK FIRE MULTIPLICATION

1. What is 7 times 4? = 28
2. What is 3 multiplied by 8? = 24

NOW TRY THESE!

3. If 144,000 wild birds were ringed in Scotland in 2011, and half this number the following year, how many birds were ringed in 2012? = 72,000
4. Scotland is home to around 50% of the world's gannets. If there are 180,000 here, how many are there in the rest of the world? = 180,000
5. The smallest British birds' egg is from the goldcrest. These eggs weigh 6g. If a bird lays 9 eggs, how heavy are they in total? = 54g
6. If there are 5 bluetits in a garden and they each eat 12 seeds from the bird feeder, how many seeds is this in total? = 60
7. Scotland's largest puffin colony is found on St Kilda where there are 136,000 pairs. If half the pairs flew out to sea, how many would be left? = 68,000
8. If 26 chaffinch nests have 4 eggs in each, how many eggs is this in total? = 104
9. A magpie was tracked flying 16 miles a day. So how many miles could it fly in 4 days? = 64
10. There are 50 species of gull in the world. 6 of these species live in the UK. How many species do NOT live in the UK? = 44
