

Ten Pieces Secondary

Activity 3: Art

Listen to the 2nd movement from Shostakovich's Symphony No. 10. Does the music remind you of something that's happening in your world? It could be an issue you hear about in the news or something personal that's going in your life.

Draw some simple lines to represent the things you're thinking about and the emotions you're feeling.

Consider how you would use different colours and compositions to help bring your ideas to life. Jot down a few ideas here. After the Live Lesson, why not try creating a larger piece of work based on your sketch?
