

Activity: Write a funny caption

Captions are a great way to get a big laugh. You can create your own caption by putting together an unexpected combination of words and pictures.

Before and during the Live Lesson, create a funny caption for this image by following the steps below. Keep it short and snappy! Try and write it within 120 characters and ask your teachers to send it to us using the hashtag **#bbclivelessons**. If it's longer, they can also send it in via email to live.lessons@bbc.co.uk.

A comedy caption might take the form of a headline describing what's going on in the picture or it might be a line of dialogue from one of the people in the picture.

Comedy writers will come up with lots of alternative captions for a single picture, then spend time editing their favourite one. Can you convey your comic idea in fewer, plainer words?

Pick your favourite using the tickbox and refine it.

First thoughts

My caption

Have you written a great caption? Ask your teacher to send it to us and it could be featured in our Comedy Classroom Live Lesson.
