The picture was taken 1961 and it shows Dr Martin Luther King.

Dr King was born on 15 January 1929 and lived in America, where every year there is a public holiday to remember and celebrate his life. At the time Martin Luther King lived, much of America did not allow the same rights to all its citizens - for example, a black person might not be allowed to go to the same places, or do the same things, as a white person. Dr King devoted his life to finding peaceful ways to struggle against that injustice and became a figurehead for what is known as the Civil Rights Movement. He is particularly famous for a speech he gave - one of the most famous speeches of all time - in which he outlined his vision for a fairer, more just society for everyone. Today we call it the 'I have a dream speech'.

In this story a woman remembers how, as a child, she was taken by her father to hear that famous speech...
