

Build that pyramid

Build that pyramid

Build it up tall

Measure the angles

So the stones don't fall

Put the stones together

Keep them all neat

Till that pyramid

Is complete!

1. Calculate with symmetry

Plan proportions carefully

Quarry some limestone,

choose your rocks

Cut into enormous blocks!

Build that pyramid... (etc)

2. Move your stones by sledge or boat

Drag along, or load and float

Teams of people working hard

Bring those stones to the building yard!

Build that pyramid... (etc)

3. Work together, heave and shift

Ramp those stones up, roll and lift

Step by step, or sloping side

Build that pyramid good and wide!

Build that pyramid... (etc, twice)
