

Stop and Think

1 Can you see the rubbish
Lying on the ground?
The wind picks up the plastic bags
Blows them all around.
If you want a healthy planet
It's all down to you.
So, when you eat your crisps and sweets,
Here's what you can do...

*Stop and think! Throw it in!
Put your rubbish in the bin.
Come on now, we need to care
For this wonderful world we share.*

2 Packets, tins and paper,
Old banana skins.
Foil and plastic wrappers,
Cartons, straws and tins.
In the woods and parks, on beaches,
On the pavements, in the street,
Don't be a messy litter bug
Don't drop things at your feet.

*Stop and think! Throw it in!
Put your rubbish in the bin.
Come on now, we need to care
For this wonderful world we share.*

3 We all want a happy world
We need to respect it.
Keep it healthy, green and clean
Let's try to protect it.
You can get recycling
There are bins for different things -
Glass and plastic, cardboard too
It's all down to you!

*Stop and think! Throw it in!
Put your rubbish in the bin.
Come on now, we need to care
For this wonderful world we share.*

*Stop and think! Throw it in!
Put your rubbish in the bin.
Come on now, we need to care
For this wonderful world we share.*
