

When you want to make a spell

When you want to make a spell
When you want to make a spell
When you want to make a spell
This is how you do it

First you get a magic wand
First you get a magic wand
First you get a magic wand
And you wave it slowly

Then you get some fairy dust
Then you get some fairy dust
Then you get some fairy dust
And you sprinkle safely

Next you chant the magic words
Next you chant the magic words
Next you chant the magic words
And you say them softly

Now you've made your magic spell
Now you've made your magic spell
Now you've made your magic spell
Wait and watch and wonder
