

Question or information?

Two friends are texting each other. Which texts are questions? Which of the texts just give information? Use the cards on page 2 to show your answers.

Do you know if they have children's swimming classes at the local pool?

Yes. We went there last week.

How much does it cost?

How old are your children?

Sunil is 6 and Shara is 3.

It is £4 each but only £2 for children under five.

That sounds perfect. I think we might go next week.

What day were you thinking about going? Perhaps we could all go together?

Cut out these cards and use them to show whether the text messages on page 1 are questions or information.
