

# Order the instructions

Instructions can show us the correct order to do something. Put the instructions for each activity in the right order.

When the dough is elastic, let it rise in a warm place until it is twice the size.

Finally, fix the back to the bookcase and put in the other shelves.

At the main menu, choose 'personal settings'.

To start, mix flour, water and yeast in a large bowl to make a dough.

Fix the middle, top and bottom shelves to the right side using the screws provided.

When the phone is on, press the 'home' button to go to the main menu.

After the dough has risen, shape it and bake in a hot oven.

First, lay out the sides, back and shelves.

Select your options from the personal settings toolbar.

Then tip out the dough on to a surface and knead until elastic.

After the right side, fix the left side to the middle, top and bottom shelves.

Before starting, turn on your new phone and insert the SIM card.
