

Bathing a patient: listening for information

Listen to the audio clip **Bathing a patient: listening for information**. Answer the questions as fully as you can.

1. Can you explain why you might use an automatic bath seat or lift for an elderly or frail person?

2. Why should you try to reassure the person you are bathing?

3. How can you help a person maintain their dignity when they need help with taking a bath?

4. Why might you need to use a seat with arms on it?

5. Why is it important to make sure you have everything ready before you start the bath procedure?
