

Decimals in life

We see decimals all around us. Decimal numbers break down whole numbers into smaller parts. They always have a decimal point.

You can see decimal prices on this market stall.

The price for these strawberries is £1.20.

Here are decimal weights on a food label for a pizza.

This shows that half a pizza has 18.3 grams of fat.

This till receipt shows decimal prices.

It shows that the grapes cost £1.56.
