

Place value 2

Put these decimals in the correct order of size, from **smallest** to **largest**.

1. Cut up the numbers and then put them in the correct order.
2. Transfer the numbers to their correct positions in the blank place-value table below.

2.85	1.09	81.98	10
1.5	4.1	130.2	6.8
10.2	10.11	525.06	838.73
45.9	802.01	6.8	4.5
8.07	15.25	3.09	1.99

Place value 2

Now you have your numbers in the correct order, write them in the place value table:

Hundreds	Tens	Units	.	Tenths $\frac{1}{10}$	Hundredths $\frac{1}{100}$
