

Zero as a place holder

Look at the pairs in the table below. **Are they the same number?**

If they **are** the same number put an = between them. If they are **not** the same number put a **x** between them. An example has been done for you.

1.2	=	1.20
2.09		2.9
3 + 0.1		3.1
40 + 0.04		40.04
5.06		5 + 0.06
1.5		1.05
00.05		0.050
105.2		10.52
00.09		000.9
27.60		27.6
2.02		20 + 0.02
32		302
500.2		50.02
02.00		2
