

# Formulas

It is your dad's birthday. You are buying him a joint gift with your family. Each person will pay £3 towards the gift. Everyone has a different amount of money to start with. A **formula** will tell you how much money each person will have left after they have all paid the same amount.

	number	formula	answer
	money each person has	- £3	money each person has left
<b>Mum</b> 	 5	 - 3	 = 2
<b>Jameela</b> 	 3	 - 3	 = 0
<b>Uncle Ravi</b> 	 7	 - 3	 = 4
