

## Rounding addition methods and examples

These tables have some more information to help you with addition by rounding.

The first shows methods and examples for adding a number **between 11 and 14** to another number.

To add	Methods	Examples
11	Add 10, then add 1 more	$23 + 11 \rightarrow 23 + 10 + 1 = 34$
12	Add 10, then add 2 more	$19 + 12 \rightarrow 19 + 10 + 2 = 31$
13	Add 10, then add 3 more	$7 + 13 \rightarrow 7 + 10 + 3 = 20$
14	Add 10, then add 4 more	$24 + 14 \rightarrow 24 + 10 + 4 = 38$

This table shows methods and examples for adding a number **between 15 and 19** to another number.

To add	Methods	Examples
15	Add 10, then add 5 more OR Add 20 then take away 5	<b>25 + 15</b> $25 + 20 = 45$ , then $45 - 5 = 40$ OR $25 + 10 = 35$ , then $35 + 5 = 40$ <b>25 + 15 = 40</b>
16	Add 20 then take away 4	<b>34 + 16</b> $34 + 20 = 54$ , then $54 - 4 = 50$ <b>34 + 16 = 50</b>
17	Add 20 then take away 3	<b>49 + 17</b> $49 + 20 = 69$ , then $69 - 3 = 66$ <b>49 + 17 = 66</b>
18	Add 20 then take away 2	<b>27 + 18</b> $27 + 20 = 47$ , then $47 - 2 = 45$ <b>27 + 18 = 45</b>
19	Add 20 then take away 1	<b>63 + 19</b> $63 + 20 = 83$ , then $83 - 1 = 82$ <b>63 + 19 = 82</b>
