

Splitting numbers

Have a go at splitting the **number you're dividing into** to divide the amounts below.

Example

$48 \div 3$ is the same as:

$30 \div 3$ plus $18 \div 3$, which is
 $10 + 6$

= 16

Questions

1. $42 \div 3$

2. $75 \div 5$

3. $56 \div 4$

4. $96 \div 8$

5. $117 \div 9$

Now check your answers with the answer sheet.
