

Multiplication square

Multiplication is much easier if you know your times tables. You can use this square, also known as a **times-tables grid**, to help you with them.

x	0	1	2	3	4	5	6	7	8	9	10
0	0	0	0	0	0	0	0	0	0	0	0
1	0	1	2	3	4	5	6	7	8	9	10
2	0	2	4	6	8	10	12	14	16	18	20
3	0	3	6	9	12	15	18	21	24	27	30
4	0	4	8	12	16	20	24	28	32	36	40
5	0	5	10	15	20	25	30	35	40	45	50
6	0	6	12	18	24	30	36	42	48	54	60
7	0	7	14	21	28	35	42	49	56	63	70
8	0	8	16	24	32	40	48	56	64	72	80
9	0	9	18	27	36	45	54	63	72	81	90
10	0	10	20	30	40	50	60	70	80	90	100

Print the square and highlight any times tables you find difficult.

Learn the tricky ones that you may not know: try to concentrate on **6s**, **7s**, **8s** and **9s**.

Pin the on your wall if that helps.
