

## Problem solving with addition and subtraction: time

Complete the tables below:

1.

<b>Step 1</b> <b>Read and understand the problem.</b>	You arrive at the bus stop at 10.30 am. Your bus is due at 10.45 am. How many minutes will you have to wait?
<b>Step 2</b> <b>Work out what calculations you need to do.</b>	
<b>Step 3</b> <b>Carry out the calculations and answer the problem.</b>	
<b>Step 4</b> <b>Check your answer works.</b>	

2.

<b>Step 1</b> <b>Read and understand the problem.</b>	Your puppy needs to be inoculated before he can go out for a walk. He'll be 8 weeks old when he has his first inoculation. You have to wait 6 weeks for his booster and another 4 weeks for the booster to take effect. How old will he be when he can go out?
<b>Step 2</b> <b>Work out what calculations you need to do.</b>	
<b>Step 3</b> <b>Carry out the calculations and answer the problem.</b>	
<b>Step 4</b> <b>Check your answer works.</b>
