

Working out fractions

1. These cakes are to be cut into quarters.

How many quarters will there be in total?

2. These three pizzas are to be cut into quarters.

If each person gets three equal pieces of pizza, how many people can share these pizzas?

3. Becky's Bakery sells three sizes of pizza:

a. Complete the price table below.

	Price for 1/2	Price for 1/4
Mega-size		
Medium		
Mini		

Becky's Bakery - yum!

Pizzas

Mega-size: £2.40
Medium: £1.80
Mini: £0.60

Half the pizza, half the price!

Or you can buy a quarter for a quarter of the price - yum!

b. The bakery makes 20 mini pizzas. Extra tomato is put on 1/4 of these.

How many mini pizzas have extra tomato? _____

c. What fraction doesn't have extra tomato? _____
