

Simplifying fractions

Which of these fractions can be simplified? Put a cross in the boxes next to the fractions that can't be simplified. If they can be simplified, show how. Are any of the fractions larger than one whole?

1. $\frac{3}{4}$

2. $\frac{1}{5}$

3. $\frac{2}{6}$

4. $\frac{6}{12}$

5. $\frac{5}{6}$

6. $\frac{2}{4}$

7. $\frac{3}{4}$

8. $\frac{4}{16}$

9. $\frac{2}{1}$

10. $\frac{5}{15}$
