

Estimating weights of packages

The amount that you pay to send things through the Royal Mail has changed. Prices are now based on the size and weight of the letter or packet that you want to send.

Either visit your local Post Office and ask for a leaflet, or use information available on the Royal Mail website www.royalmail.com/size to help you answer the following questions about letters, large letters and packets:

1. What's the **maximum** weight of a letter?
2. How much heavier is this than the previous weight limit of 60 g?
3. What's the **maximum** weight of a large letter?
4. Is something that weighs 1 kilogram a letter, large letter or packet?
