Do you know the rhyme about how many days in each month?

30 days have September,  
 April, June and November,  
 All the rest have 31,  
 Except February alone,  
 Which has 28 days clear,  
 And 29 in each leap year.

**Decades**, **centuries** and **millennia** are longer periods of time. Do you know what they mean?

Check out the meanings of any words that you don't understand in the factsheet **Key words for measuring time**.
