

## Forming compound words - answers

Here are the compound words that can be formed from the words that were broken up:

anybody	nobody	everybody	somebody
anyhow	nohow		somehow
anyone	no-one	everyone	someone
anything	nothing	everything	something
anywhere	nowhere	everywhere	somewhere
		everyday	someday
anytime			sometime

### Note

- 'No-one' is one word but it is spelled with a hyphen so that the two 'o's are pronounced separately (and not together, as in 'noon').
- 'Nohow' is a word that is used in American English but not in British English.
