

Using an index - answers

This is a page from an index.

1. What sort of book does this index come from?

Correct answer: the index comes from a **gardening book**.

2. If you wanted to check what grows well in the soil in your garden, what page would you turn to?

Correct answer: you would turn to **page 11** for information about **acid, alkaline and chalky soils**.

3. If you were troubled with a disease on your roses, what page might be helpful?

Correct answer: you might turn first to the section on diseases on **pages 79-84**. If you knew that the disease that was affecting your roses was **blackspot**, you could go straight to **page 79**.

4. If you wanted to do some building work in your garden, what page might help you?

Correct answer: you could have a look at **page 19**, which will tell you about **brickwork** in the garden.

5. If you didn't have a garden, but wanted to grow something on your small patio, what page might be useful? .

Correct answer: you might want to look at the information on **hanging baskets on pages 34-35**.

6. If you wanted some spring colour in your garden, is there anything here that might give you some ideas?

Correct answer: You could look at the **pages on bulbs, 39-41**. Or you could go straight to particular bulbs, such as **crocuses on page 40** or **daffodils on page 41**. You might even choose other plants.

INDEX

| | |
|-----------------------|-----------------|
| Acid soils 11 | Cabbages 109 |
