

## Doubling - answers

The answers are given below:

1.  $26 \times 5$  is the same as:

$$26 \times 10 = 260 \text{ halved}$$

$$260 \div 2 = \underline{\mathbf{130}}$$

2.  $84 \times 5$  is the same as:

$$84 \times 10 = 840 \text{ halved}$$

$$840 \div 2 = \underline{\mathbf{420}}$$

3.  $77 \times 5$  is the same as:

$$77 \times 10 = 770 \text{ halved}$$

$$770 \div 2 = \underline{\mathbf{385}}$$

4.  $43 \times 5$  is the same as:

$$43 \times 10 = 430 \text{ halved}$$

$$430 \div 2 = \underline{\mathbf{215}}$$

5.  $65 \times 5$  is the same as:

$$65 \times 10 = 650 \text{ halved}$$

$$650 \div 2 = \underline{\mathbf{325}}$$

6.  $33 \times 5$  is the same as:

$$33 \times 10 = 330 \text{ halved}$$

$$330 \div 2 = \underline{\mathbf{165}}$$

7.  $52 \times 5$  is the same as:

$$52 \times 10 = 520 \text{ halved}$$

$$520 \div 2 = \underline{\mathbf{260}}$$

8.  $94 \times 5$  is the same as:

$$94 \times 10 = 940 \text{ halved}$$

$$940 \div 2 = \underline{\mathbf{470}}$$
