

Multiplying by 100 - answers

To multiply by 100 make the number bigger by moving all the digits along **two** places.

Th	H	T	U	.	$\frac{1}{10}$	$\frac{1}{100}$	$\frac{1}{1000}$
		8	0	.	9		
8	0	9	0				

Th = thousands

H = hundreds

T = tens

U = units

The answers are given below:

1. $8 \times 100 = \underline{800}$
2. $31 \times 100 = \underline{3,100}$
3. $82 \times 100 = \underline{8,200}$
4. $410 \times 100 = \underline{41,000}$
5. $702 \times 100 = \underline{70,200}$
6. $60.014 \times 100 = \underline{6,001.4}$
7. $28.037 \times 100 = \underline{2,803.7}$
8. $34.12 \times 100 = \underline{3,412}$
9. $80.9 \times 100 = \underline{8,090}$
10. $127.3 \times 100 = \underline{12,730}$
