

Dividing amounts by 10 and 100 - answers

Complete the table by converting the amounts in pence to £:

Pence	£
900	9
1,500	15
440	4.40
99	0.99
3,300	33
7,500	75
1,995	19.95

Calculate 10% of the following amounts:

Amount	Calculation	10% of amount
£32	$32 \div 10$	£3.20
£112	$112 \div 10$	£11.20
£201	$201 \div 10$	£20.10
£8	$8 \div 10$	£0.80 or 80p
£1,050	$1,050 \div 10$	£105 or £105.00
£0.40	$0.4 \div 10$	£0.04 or 4p

If you've made mistakes using written or mental methods, try using a calculator to see if you're dividing by the correct number.
