

Dividing by 10, 100 and 1,000 - answers

Complete the table to show how you're using division to convert the following measurements:

Original measurement	Convert to	Divide by	Answer
500 centimetres	metres	100	5 metres
4,500 millilitres	litres	1,000	4.5 litres
60 millimetres	centimetres	10	6 centimetres
2,200 grams	kilograms	1,000	2.2 kilograms
7,500 millimetres	metres	1,000	7.5 metres
10,000 metres	kilometres	1,000	10 kilometres
3,250 millilitres	litres	1,000	3.25 litres
600 grams	kilograms	1,000	0.6 kilograms
88 centimetres	metres	100	0.88 metres
5 millimetres	centimetres	10	0.5 centimetres
70 millimetres	metres	1,000	0.07 metres
20 grams	kilograms	1,000	0.02 kilograms
400 kilograms	tonnes	1,000	0.4 tonnes

If you've made mistakes using written or mental methods try using a calculator to see if you're dividing by the correct number.
