

Times tables: true or false? - answers

The following statements are **True**:

1. All the numbers in the 5 × table end in 0 or 5.

2. All the numbers in the 4 × table are even.

4. All the numbers in the 9 × table have digits that add to 9.

5. All the numbers in the 6 × table are also in the 3 × table.
(If you carry on the 3 × table past 10×3 .)

The following statements are **False**:

3. All the numbers in the 7 × table are even. (Every other number is even.)

6. All the numbers in the 3 × table are odd. (Every other number is odd.)
