

### Dividing sums of money - answers

The answers below were found using the traditional method. Your method may be different.

1. 
$$\begin{array}{r} 0.43 \\ 5 \overline{) 2.215} \end{array}$$
 Correct answer: **one orange costs 43p**

2. 
$$\begin{array}{r} 09.375 \\ 8 \overline{) 775.306040} \end{array}$$
 Correct answer: **9.375**  
**Round this up to £9.38.**

3. 
$$\begin{array}{r} 09.333 \\ 9 \overline{) 884.303030} \end{array}$$
 Correct answer: **9.333**  
**Round this down to £9.33.**

4. 
$$\begin{array}{r} 07.50 \\ 12 \overline{) 90.00} \\ \underline{84} \phantom{00} \\ 60 \\ \underline{60} \phantom{00} \\ 00 \end{array}$$
 Correct answer: **£7.50**  
**Remember to put the 0 in the second decimal place.**

5. 
$$\begin{array}{r} 060.714 \\ 7 \overline{) 425.501030} \end{array}$$
 Correct answer: **60.714**  
**Round this down to £60.71.**

6. 
$$\begin{array}{r} 004.166 \\ 24 \overline{) 100.000} \\ \underline{96} \phantom{00} \\ 40 \\ \underline{24} \phantom{00} \\ 160 \\ \underline{144} \phantom{00} \\ 160 \\ \underline{144} \phantom{00} \\ 160 \\ \underline{144} \phantom{00} \\ 160 \\ \underline{144} \phantom{00} \\ 160 \end{array}$$
 Correct answer: **4.166**  
**Round this up to £4.17.**
