

## Creating your own table - answers

Did your tally chart look like this?

Name	Tally	Frequency
Matthews		7
Barnaby		4
Johnson		4
Evans		2
Singh		3
	<b>Total:</b>	<b>20</b>

Did the table you created look something like the one below?

Title: **Goal-scoring league table**

Name of player	Number of goals scored
Matthews	7
Barnaby	4
Johnson	4
Singh	3
Evans	2
<b>Total</b>	<b>20</b>

You may have chosen a different title and column headings, but the information you included should be the same.

If you can, show your table to someone who can check it for you.
