

## Using a distance table - answers

### Working out distances

How did you do?

UK Road Distance Chart. All distances are in miles.

|            | Birmingham | Cardiff | Edinburgh | London | York |
|------------|------------|---------|-----------|--------|------|
| Birmingham |            | 102     | 290       | 111    | 129  |
| Cardiff    | 102        |         | 273       | 150    | 231  |
| Edinburgh  | 290        | 373     |           | 372    | 186  |
| London     | 111        | 150     | 372       |        | 194  |
| York       | 129        | 231     | 186       | 194    |      |

Use the above table to work out the distance between these cities.

1. Birmingham and Edinburgh are **290** miles apart.
2. London and Cardiff are **150** miles apart.
3. York and Birmingham are **129** miles apart.
4. Cardiff and York are **231** miles apart.
5. Which cities are 186 miles apart? **York and Edinburgh** are 186 miles apart.

Now check your answers with those on the answer sheet.
