

Video	Central or big idea	Think, work and apply like a geographer	Questions to explore	Key learning outcomes
<p>KS2 Geography. A location in Europe: Inzell - Germany</p>	<p>Seasons impact human activity in a region.</p>	<ul style="list-style-type: none"> • Compare • Interconnected • Space • Sense of place 	<ul style="list-style-type: none"> • Where are Inzell, Munich, Germany and the Alps? • Which countries border Germany? • What is life like in the Alps? • What words could be used to describe mountains and life in the mountains? • Are all areas of a settlement the same? • Why are forests important to people in rural areas of Bavaria? • How do the seasons impact life in rural Bavaria? • Would everyone enjoy living in the mountains, why/why not? • Which place in the video would you like to explore and why? 	<ul style="list-style-type: none"> • To know how to locate places at different scales on a map. • To know how physical features affect human activity and how this can be managed. • To know what life might be like in an alpine biome. • To know how to interpret information from a video source. <p><i>This film is relevant for teaching Geography at Key Stage 2 in England, Wales and Northern Ireland and 2nd Level in Scotland. The National Curriculum for Geography at Key Stage 2 emphasises study of a European location and making comparisons with a location in the United Kingdom.</i></p>
Key geographical vocabulary and definitions			Suggested learning opportunities	Ideas for going further and links
<p>Mountain Season Region Alps Lake</p>			<p>1. Winter or summer Pupils can sort activities depending on whether they are more likely to happen in each season. This could be a Venn diagram. A number of sports could be included and discussions focus on the time of year and where they are popular. Pupils could investigate which sports are in the Summer and Winter Olympics. Pupils could use maps to locate and demonstrate the countries that participate and achieve gold medals at these events.</p>	<p>Investigate the Alps, how they were formed, which countries they cover, how they compare to other mountain ranges across the globe and the highlights and challenges of living in a mountainous region.</p> <p>KS2 Geography: Mountains - how tectonic plates create mountain ranges</p> <p>KS1/KS2 Primary Geography: The seasons</p>

A location in Europe: Inzell - Germany

	<p>2. Alpine life Take pupils on a walk through the local neighbourhood and ask them to record down what they see happening, including people and animals. Discuss what else might be happening at different times of day and areas you didn't manage to reach - eg park, High Street, etc. Pupils imagine that their neighbourhood was covered in more than a meter of snow every winter. Pupils list the potential problems that this would bring to the activities that they had observed and for each create a possible solution.</p>
