

Earth is warming faster, greenhouse gases in the air,
Because of climate change, it's important that we care!
Human actions contribute, releasing CO₂,
It gets trapped in the atmosphere - so what can we all do?

Well, we can make a difference with our choices every day,
What's the planet-friendliest, low-carbon legend way!

Small steps, big change, we are on one planet.
If you're kind, you will find,
you can help the planet!

Choose local, recycle, upcycle and reuse,
Protect it, respect it, reflect on what you choose.

Your planet friendly choices have inspired our gig's production,
Unplugged music, lyrics and you followed the instruction...
Crafted wristbands, homemade snacks, and sharing rides or walking,
Wearing clothes you've got not bought, that's perfect - now we're
talking!

We can really make a difference with our choices every day,
That's the planet-friendliest, low-carbon legend way!

Small steps, big change, we are on one planet.
If you're kind, you will find,
you can help the planet!
Tread lightly, shine brightly,
on our awesome planet.

Change comes true with me and you,
We can help our planet!
