Your

Walking With

Dinosaurs

mission is inside
this book.

MISSION

Name the mystery dinosaur.

☐ T. rex

☐ Gastonia

☐ Lusotitan

☐ Spinosaurus

What adaptations did these dinosaurs have to help them live their lives?

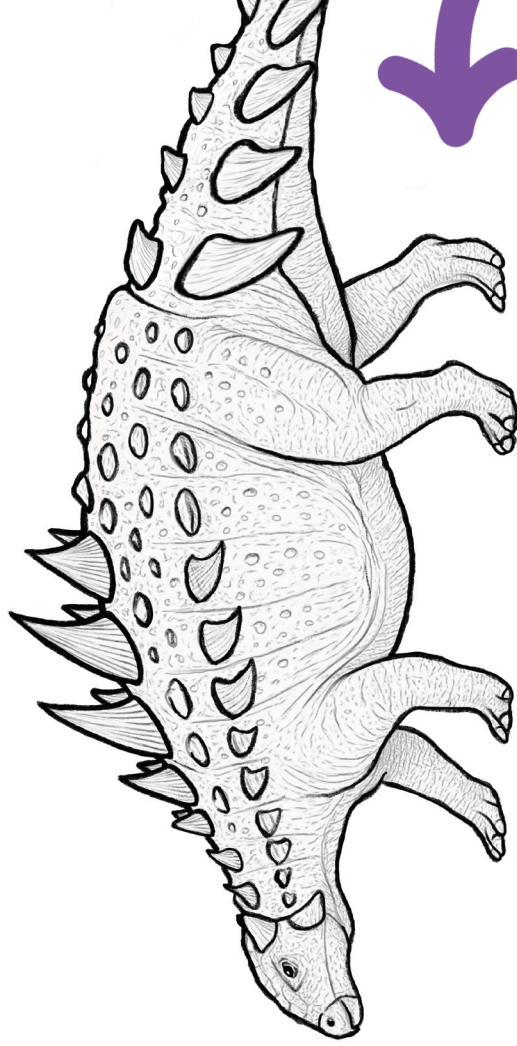

Gastonia

CHALLENGE

2

Utahraptor

Circle or note the
things you spot.

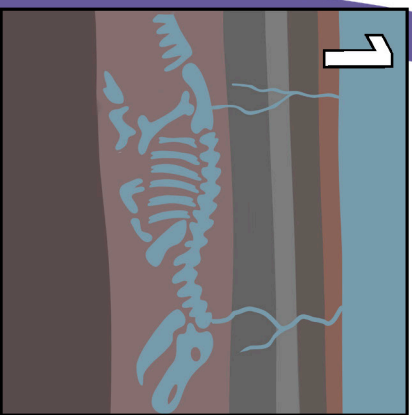

Note down clues here.

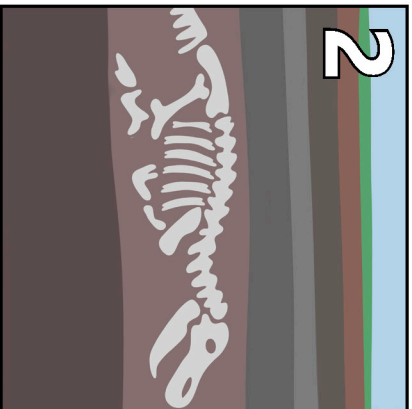

Put the pictures in the right order.

CHALLENGE

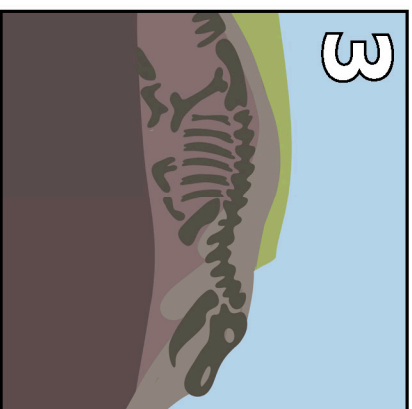

1

Water breaks down bones, leaving an empty shape in the rock.

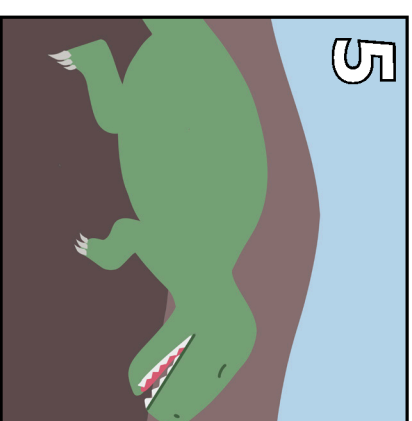

More sand or mud piles up, pressing down until it turns to rock.

Earth wears away to show the fossil

Water leaves minerals like salt behind. They fill the shape and turn to rock.

Dinosaur dies. Sand or mud quickly covers it. Its soft parts rot away.
