

Deadly 60: Museum Escape – Live Lesson

Activity 1: Sort the fossils

Each of the fossils below belongs in one of three groups:
body fossils, **trace** fossils or **poo** fossils.

Sort the fossils by drawing a line from each picture to the box where they belong.

T-rex skull

Eggshell fragments

Theropod footprint

Ammonite

Dinosaur coprolite

Fish

Activity 2: Piece together the ichthyosaur

Below is an image of an ichthyosaur fossil that has been mixed up.

Carefully cut out the pieces and rearrange the ichthyosaur correctly to reveal a hidden word that points the way to the next destination in the museum!

Each of these numbered images shows a different stage in the evolution of animal hooves.

Place them in the correct order of evolution by writing the numbers on each stage of the diagram below.
