## Reading and amending a pictogram

Have a look at the pictogram and answer the questions below.

Favourite meal for a group of 22 students.

1. How many students liked pasta best? _____

2. How many students chose pizza? _____

3. Which was the least popular meal? _____

4. Ten more said what their favourite meal was. Six liked Caribbean food the best, two liked curry and the others chose pasta. **Add this information to the diagram.**

5. How many students were asked altogether? _____

6. Now that more data has been added to the pictogram, has the least popular meal changed?

_____

Now check your answers with those on the answer sheet.
