

Video summary	Before watching the video	During the video
<p>A short film for secondary schools explaining primary and secondary industries.</p> <p>It will help students to understand the background of these industries and what each contributes to society and the country and how they are linked.</p> <p>It covers the raw material harvest of primary industries and how these raw materials are processed, manufactured and changed, through secondary industries, into the products we use in our daily lives, such as cars.</p>	<p>Ask students to create a list of ten different jobs. Students share the list of jobs with the rest of the class. Discuss with students what categories those jobs could fit into, are there any similarities between the types of jobs?</p> <p>Introduce key terms such as: Industry: Any economic activity which creates jobs and generates income.</p> <p>Primary industry: These involve the growing, extracting or collection of raw materials from the Earth or sea.</p> <p>Secondary industry: These involve turning raw materials from the primary sector into a manufactured product.</p>	<p>You may wish to stop at relevant points during this short film to pose questions and check understanding or wait until the end. Useful questions might include:</p> <ul style="list-style-type: none"> • How many industry sectors are there? • What are primary industries? • Give an example of a job in the primary sector. • What are secondary industries? • Give an example of a job in the secondary sector. • Why did primary and secondary industries used to be located near each other? • What link is there between the different industries and globalisation?
After watching		
<p>After watching this short film, students could carry out a study of the industries in their local area; what are the main types of industry present and how have these changed over time?</p> <p>Ask students to create a list of jobs that are part of each sector. Research could be carried out into countries where a high number of jobs are available in each of the primary and secondary sectors.</p>		

Curriculum notes	Where next?	Links
<p><i>This short film is relevant for teaching geography at KS3 in England, Wales and Northern Ireland and 3rd and 4th Level in Scotland.</i></p> <p>It meets the requirement of the Key Stage 3 Geography Curriculum with regard to:</p> <ul style="list-style-type: none"> • human geography relating to: population and urbanisation • international development economic activity in the primary, secondary, tertiary and quaternary sectors • the use of natural resources 	<p>This is a great opportunity to investigate the range of different jobs available in geography.</p> <ul style="list-style-type: none"> • Use Bitesize Careers section on Geography, History and Religious Studies to help students to understand more about jobs in geography. 	<p>Types of industry: https://www.bbc.co.uk/bitesize/articles/zx6mxbk</p>
