

Tiny Happy People Posters: Printing Guidelines

Thank you for supporting *Tiny Happy People!*

Posters

For in-office or at-home printing in lower quantity numbers; if you're only printing the poster in low numbers we suggest printing the document in colour on A4 or larger.

For large quantity and high quality printing please use the 'FULL BLEED' versions. We recommend you use a professional printing services for more than 100x posters.

A5 Postcards

A5 postcards can be given to parents by Health Visitors and Midwives at their appointment or simply leave them in a place where they can be picked-up easily.

We recommend using a professional printing service for the A5 double-sided postcards, on no lower than 200gsm paper.
